

## I Want

Oh the world is full of shiny stuff  
And I can never get enough  
It's not the only trouble that joy fades  
When I have thrown the box away

And I want and I want and I want  
And I want and I want  
And I want and I want and I want  
And I want but I...

I can't buy a clean sky  
Dripping its dawn light  
A sea singing with life  
A spinning autumn leaf  
The breath of an oak tree  
The first flower you picked me  
The turn of a bird's wing  
Banking on the breeze

Do we have a program deep inside  
Says if we claim it we'll survive?  
Well I'm gonna' have to rise above it  
Cause my mammal life depends upon it.

And I want and I want and I want  
And I want and I want  
And I want and I want and I want  
And I want but I...

I can't buy a clean sky  
Dripping its dawn light  
A sea singing with life  
A spinning autumn leaf  
The breath of an oak tree  
The first flower you picked me  
The turn of a bird's wing  
Banking on the breeze

What once we knew  
Gathered around the fire x3

Oh the world is full of shiny stuff  
And I can never get enough  
It's not the only trouble that joy fades  
When I have thrown the box away
